

## IN THE NEWS

January 28, 2019

Edwards is pleased to introduce Facebook as our latest social media channel to communicate with our strategic partners as well as influencers and potential new end users.

This new capability was developed to provide an interactive platform for sharing product information, relevant news, SP wins and upcoming events.

We are excited about this channel and would ask that you participate in its message by providing your ideas, stories, photos and content suggestions. Feel free to pass on comments to your sales contact or directly to the site administrator at [barry.stahl@fs.utc.com](mailto:barry.stahl@fs.utc.com).

To link to this channel, use the URL referenced below or search Edwards Safety on Facebook. We look forward to hearing from you!
